

## *Resources*

Primary care settings are increasingly the first line of identification for behavioral health (BH) issues, especially for depression. As your patients' primary medical practitioner, you already know the large number of patients who present with both physical and behavioral health disorders. Beacon Health Strategies supports PCPs as the locus of treatment for a wide variety of BH diagnoses. To that end, we offer you this toolkit to help you with identification of BH conditions, as well as next steps in treatment of BH conditions.

### ***MCTAC.ORG***

To assist behavioral health providers in the transition to Medicaid Managed Care beginning in 2015, New York State is working with the Managed Care Technical Assistance Center (MCTAC), led by NYU's McSilver Institute for Poverty Policy and Research, in partnership with CASAColumbia and a group of leading academic and service-delivery organizations. MCTAC provides a variety of tools and trainings to assist providers improve their business and clinical practices as they navigate the changing healthcare environment.

### ***OnTrackNY.org*** (First Episode Psychosis)

OnTrackNY is an innovative treatment program for adolescents and young adults who have had unusual thoughts and behaviors, or who have started hearing or seeing things that others don't. OnTrackNY helps people achieve their goals for school, work, and relationships. Programs are located throughout New York State.

For a list of resources and information for young people transitioning to adulthood, their families and service providers please access the OMH link below:
